

## Mercury Outboard 3+3 Bonus Warranty

Your new Mercury Outboard comes with a standard 3-year factory warranty and by adhering to the recommended maintenance schedule, you will be eligible for up to 3 years of bonus warranty.

**Note:** The 3-year bonus warranty only applies for pleasure use. Does not apply to Race products or "R" models. Engines used in government or commercial applications (even if only occasionally) are not eligible.

### This will give you 6 years of full non-declining warranty coverage.

- The warranty coverage is the same on the last day of your warranty as it is on the first.
- Coverage doesn't decline based on the age of your engine, or the hours of use.
- 3+3 warranty is fully transferrable to the new owner when the engine is sold - this will increase the resale value of your engine.
- Maintenance requirements and normal wear and tear is not covered by this warranty.

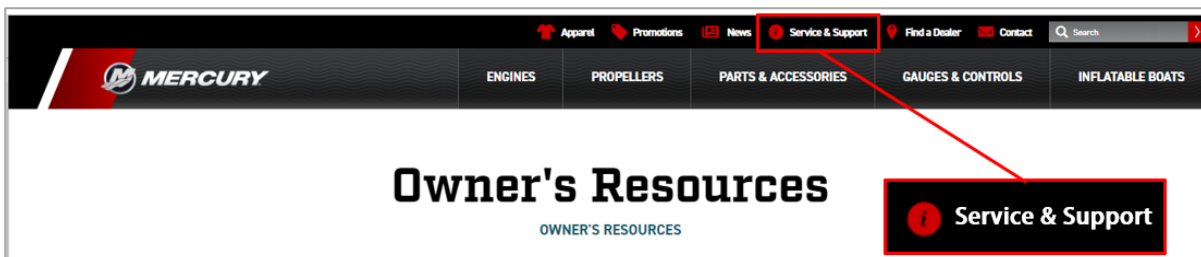

### To stay eligible for the 3+3 Bonus warranty:

- Ensure servicing is performed according to the Maintenance Schedule (see below)
- Scheduled maintenance must be performed by an authorised Mercury dealer and recorded on Mercury's Engine Service History Log
- Only genuine Mercury parts and lubes to be used

### Maintenance Schedule

- **First 3mth Inspection:** 3mths from date of sale or 20hrs of use – whichever occurs first.
  - This post-sale inspection will ensure everything is operating as required on your new engine. Even if your engine has only been used for a few hours, it is important to get this inspection done by the due date.
- **Annual Services:** Once a year or every 100hrs of use – whichever occurs first.
  - Each annual service (including the 1<sup>st</sup> annual service) is calculated from the date of sale.
  - Low hours of use - annual services are important to ensure your valuable recreational boating time is not interrupted by starting, running or reliability problems. Sometimes, infrequent use may not alert you to minor maintenance requirements.
  - High hours of use - if you exceed 100hrs of use in a year, the service should be performed once 100hrs of use is reached. The +3 warranty will remain valid, regardless of hours of use, provided your engine has been serviced at least once a year or every 100hrs of use.
- **Schedule:**
  - 3mths from date of sale or 20hrs of use – whichever occurs first
  - 1 year from date of sale or 100hrs of use – whichever occurs first
  - 2 years from date of sale or 200hrs of use – whichever occurs first
  - 3 years from date of sale or 300hrs of use – whichever occurs first
  - 4 years from date of sale or 400hrs of use – whichever occurs first
  - 5 years from date of sale or 500hrs of use – whichever occurs first
  - 6 years from date of sale or 600hrs of use – whichever occurs first
